# Libya: eye witness account

**Friday 24 June 2011, 7.00pm**

**Marchmont Community Centre, London WC1N 1AB**

Imperialism is waging war against the Libyan people. Waged on the pretext of the right to protect Libyan civilians, this war is causing massive civilian casualties. While pretending to uphold the principles of humanitarianism, rule of law, democracy and freedom, the NATO powers are waging a brutal predatory war for the subjugation of the Libyan people, the looting of their mineral wealth, and for the domination of the entire region, stretching from North Africa, through the Middle East, to Afghanistan and Central Asia.

The working class of Britain, Europe and the US must fulfil its proletarian internationalist duty and oppose this predatory war; it must support the just resistance of the Libyan people, led by the Libyan government, against this imperialist carnage.

Come and hear our two members, just back from a visit to Libya, and learn the real truth, which the imperialist media shuns as the devil shuns holy water.
